Experience

Payment Systems Engineer, EFT Corp - Accra-Ghana

March 2022 - Sept 2023

- Integrated ACI-Postilion Payment Switch with VISA, MasterCard, and GH-Link payment processors, ensuring strict compliance with PCI DSS, ISO 8583, and EMV standards for secure transactions
- Performed UAT testing on ACI-Postilion Payment Switch and t24 core banking integrations, validating transaction accuracy and compliance.
- Worked extensively with EMV, Magnetic Stripe, and Card Not Present transactions to enhance digital payment security
- Developed and executed test cases and vulnerability assessments to evaluate the security and efficiency of payment systems
- Generated and managed encryption keys on Thales HSM to secure financial transactions per regulatory security standards.
- Created and modified .stf files for testing and debugging transaction message flows.
- Led the deployment and configuration of an Active/Active ACI-Postilion Payment Switch for major banking institutions
- Conducted security compliance audits, including VISA and MasterCard certification processes for issuing and acquiring services at CBG Bank

Python Developer, Margins Group -Accra Ghana

Sep 2020 - Oct 2021

- Developed a contract management system to streamline client service tracking and agreement management.
- Provided technical support and training to internal teams, facilitating smooth UAT testing and system optimization.

Projects

- Developed an Android-based system to facilitate efficient medication distribution in underserved communities in Ghana.
- Developed financial messages following ISO 8583 standards to simulate transactions using sink and source nodes in a test environment

Volunteering

Knight of Columbus, Council 12956 Tampa

- Participate in community service projects, including organizing and building homes for families in need through **Habitat for Humanity**.
- Support local resale shops by assisting with the management, promotion, and sales of donated goods to fund charitable initiatives through Habitat for Humanity

Supervisor, USF Recreation and Welness Center

- Supervised and managed intramural sports programs on campus, ensuring smooth operations and a positive experience for participants
- Managed sports club activities, working with student leaders to organize practices, events, and competitions while ensuring adherence to safety protocols and university policies
